Personal Skills:

Reliable and professional
Team player
Fast learner
Motivated
Communication
Interpersonal skills
Organisation
Time management
Flexibility

ABOUT ME

I am currently working as a Metadata Engineer on a metadata management system for IAG. I am the sole front-end developer of this system, working predominantly with React. Previously, I was a Primary Teacher for 5 years, however was looking to broaden my horizons and take the next step in my career with my computer programming knowledge. My passion for learning inspires me to continually gain new skills. My next goal is to further develop my web development skills and nurture my curiosity and passion for coding. Visit my profile to learn more about me and access my projects.
